

Wording of Letters to Ham & High & Camden New Journal from Caversham Group Patient Participation Group

We completely support the junior doctors' strike action. That was the view of the Caversham Patients' Participation Group at our meeting on 13 July.

Inevitably the strike causes some short-term inconvenience and delay in getting appointments. But all NHS staff need to have decent pay and decent working conditions. That is what the junior doctors are seeking to achieve and in the long term that is in the best interests of the NHS and the country.

If we want a first-rate NHS - and we do - we have got to be prepared to pay for it.

A copy of this letter goes to the Secretary of State for Health.

Photo below is the letter as it appeared on Page 13 of The New Camden Journal Thursday 27th July
